

The GP partners of Lochgilphead Medical Practice are pleased to update our patients with the following information:

Dr Laura Cameron will be providing 4 session GMS input to Inveraray and Furnace from 1st January 2019.

Dr Bronagh O'Neill will be joining the practice as a partner as of 1st February 2019.

These additions are very welcome to the team following an extremely difficult period for the practice.

The telephone consulting system has now been implemented across all of the 3 sites and has proved a most efficient and effective system for managing the daily demand for medical input.

Inveraray and Furnace will have a GP back to full consulting days from week commencing 4th February and will continue with providing face to face GP and Practice Nurse appointments in Furnace on Mondays and Thursdays only. Please contact the practice by phone in the first instant.
